RV SETUP CHECKLIST

Remember to take your time

Three checks before you chock!

- [ ] 1. Check to make sure you can reach the water & electrical connections
- [ ] 2. Check to make sure your slides have enough room to clear obstacles
- [ ] 3. Check to make sure the RV is level left to right
- [ ] 4. Chock your tires
- [ ] 5. Disconnect trailer from tow vehicle
- [ ] 6. Level the trailer front to back
- [ ] 7. Deploy stabilizers
- [ ] 8. Connect to the water and electrical panel
- [ ] 9. Check inside for obstacles before operating slides
- [ ] 10. Deploy RV sides
- [ ] 11. Connect sewer hose
